

We are seeking your input on outdoor recreation priorities in Alabama!

After an extensive outreach process, the Alabama Department of Economic and Community Affairs (ADECA) has developed ten draft priorities to advance outdoor recreation in the state. These priorities came from Alabamian input via multiple statewide surveys, focus groups, and interviews with Alabama's outdoor recreation experts.

Now, we need your feedback! Please join us at one of our webinars to hear about the draft priorities and provide your input!
